Dear Barry,

Relet 14: Dallas story part of what appeared in NO.

Re;Youngblood: I have read book, as have several others. Original idea that of Joel Palmer, 6261 Tumilla, Woodlands Hills, Calif. San Francisco friend tending that end, where there is court record. Reprint edition by Avon Books, If you wrote them, original, hardback by Coward-McCann. where most likelihood of promotional material still in files.

I have someone ready to show picture to Nancy when we get it. To the best of my knowledge, no one has ever checked with Dave Cherry or Eddie Brawner. There is reason to believe neither would be dependable, but if you are asking is it worth the try, I say yes, please do.

Let me know how you make out. I have nothing certain to add. The colonel is not Cokonel Castorr. That was another Feebee trap.

Gary is now in Phila if you want to contact him. Returned last night.

Hirriedly,
